

GES Open House Information

GES will meet with parents and school-age students the evening of September 18th to provide families with information about the 2014-15 school year. In general, parents will have an opportunity to attend 2 different grade level sessions if they have more than one child attending GES. In some cases, there are a few grade levels that may have a slightly different plan they are following which will be outlined below the general schedule. Please plan on signing up for conferences at a table located near the office.

New this year, Mrs. Noel will provide a session in the gym both before and after the two informational sessions. Mrs. Noel's presentation is voluntary but families are welcome to attend one of the two sessions. The second is a repeat of the first. Parents and GES faculty/staff are invested in the growth of our children. We are excited to team with you to ensure that each child benefits from our combined efforts!
